

Liam Gobbi Candidate for Treasurer

Welcome! I am running for the position of Treasurer for Yavapai College's first student government! My passion rests in the determination to ensure success and prosperity both individually and as a whole for Yavapai's student class. It is an honor to be a part of the beginning of such an exciting journey led by our peers and revered alumni. My chosen path is toward a law degree, with hopes to transfer to Colorado State University within the next year. I was raised in Phoenix, Arizona, though Prescott is home. With a position held in such regards as Treasurer, it would be my responsibility to advocate for the student body and allocate funds to make our school a well-respected community as well as a positive learning atmosphere. Well allocated funds could improve resources available and provide requested services to attending students. Arizona will forever be a sanctuary, and it is up to residents like myself to make sure every voice is heard and progress is encouraged. I believe in change and consistent improvement for those who are future-oriented and desire the betterment of our community. With the title of Treasurer, it would provide a platform where those changes would be within reach.
