

Children in CLI Spaces

Purpose

Yavapai College values caring and safety. The Center for Learning and Innovation ensures a safe environment for all users while clarifying supervision responsibilities for children.

Policy Application

This policy applies to all individuals bringing children into Center for Learning and Innovation spaces.

Operational Policy

Children under age 13 must be directly supervised by a parent, guardian, or assigned chaperone at all times, except when:

- Enrolled in a Yavapai College course or program, or
- Using Federal depository materials at the Prescott campus library

Unaccompanied children using these exceptions must check in at the Information Desk on the first floor.

Parents, guardians, and caregivers are responsible for children's safety and supervision. Center for Learning and Innovation staff cannot provide childcare or supervision.
