Introduction

Yavapai College (YC) has been serving the higher education needs of Yavapai County since 1969. Yavapai College's mission is to provide high quality, convenient and cost-effective learning opportunities for the diverse populations of Yavapai County. The College's service area is over 8,000 square miles, which is larger than the states of New Jersey, Delaware, Connecticut and Hawaii. More than 16,000 students now take classes each year at numerous locations throughout the county. Yavapai College offers 82 certificate, degree and transfer options to students in 59 different programs of study.

Major Accomplishments in 2006-2007

- As noted in the facts-at-a-glance, Yavapai College continues to experience significant growth. The primary reason for this growth is the creation of a number of initiatives that have expanded educational programs and opened access for citizens who cannot pursue traditional class scheduling. The figures for the beginning of 2007 indicate an even greater pattern of growth as these initiatives mature and become better known by the general public.
- YC purchased a 108,000 sq. ft. building adjacent to the Prescott Airport. This facility will serve as the college's Career and Technical Education Center (CTEC). This acquisition will strengthen YC's existing occupational programs, and allow for the development of additional new technical programs.
- The YC Foundation raised more than \$2 million for the Del E. Webb Family Enrichment Center (FEC) on the Prescott campus. The FEC will serve

as a first-class, state-of-the-art learning laboratory for YC students following the early childhood education career track. The FEC serves the children of YC students, staff and faculty, and community members.

- YC graduated a record 79 nurses in 2006-07.
- The college received a \$1.4 million dollar grant from the Department of Labor to accelerate the development of allied health programs. The Medical Assistant and Phlebotomy programs began in January 2007. Programs in Pharmacy Technician and Radiological Technician are scheduled to come online in 2007-08.
- YC has been heavily involved in the development of a manufacturers' association for the region. The development of the Specialty and Light Manufacturing group (SLIM) coordinates the large number of small manufacturers in Yavapai County, and strengthens the region's economic base. SLIM works with YC in aligning training requirements specific to local manufacturers needs.
- The College formalized a 2+2 agreement with Northern Arizona University (NAU). Students can now complete an associates' degree at YC and then complete a bachelors' degree through NAU with a seamless transition.
- The College served more than 1,400 senior citizens through the Osher Lifelong Learning Institute. No State money is used and private support from the Osher Foundation has made this an outstanding program for seniors in Yavapai County. Yavapai College is the only community college that receives funds from the Osher Foundation.
- The College's Lifelong Learning division began a Community Education program

that saw more than 1,500 people in its first year. Thirty-eight percent of people enrolled in Community Education offerings were enrolling at YC for the first time.

- The YC Roughriders Soccer Team won its 18th Arizona conference championship and placed fourth in the national tournament.

Major Issues & Resolutions in 2006-2007

- Remodeling of the Prescott Campus funded by the 1999 General Bond is complete. The campus is now much more functional and has provided much needed additional space to meet the expanding needs of Yavapai County.
- The Yavapai College District Governing Board has established a Board calendar that strengthens the governance process and facilitates the College's strategic planning and budgeting processes.

Upcoming Issues for 2007-2008

- Yavapai College will select and begin implementation of a new enterprise software system. This undertaking will allow the college to maintain its position as a leader in IT instructional support, and develop a modern software platform that will support growth and the increasing need for web-based access to all of the college's functions.
- Yavapai College is in the process of developing long-range expansion plans. Elements of the plan will include possible land acquisition and programmatic emphases for each campus.
- Yavapai College is strengthening efforts and developing strategies and targets to increase the number of YC students transferring to four-year colleges and universities.

Facts-at-a-Glance		
Enrollment FY 2006-2007		
Annual Full-time Equivalent Student		3,617
Annual Unduplicated Headcount		16,312
