## Social Science Outcomes and Rubric

Upon successful completion of the required number of courses on the Social Sciences Area List the learner will be able to:
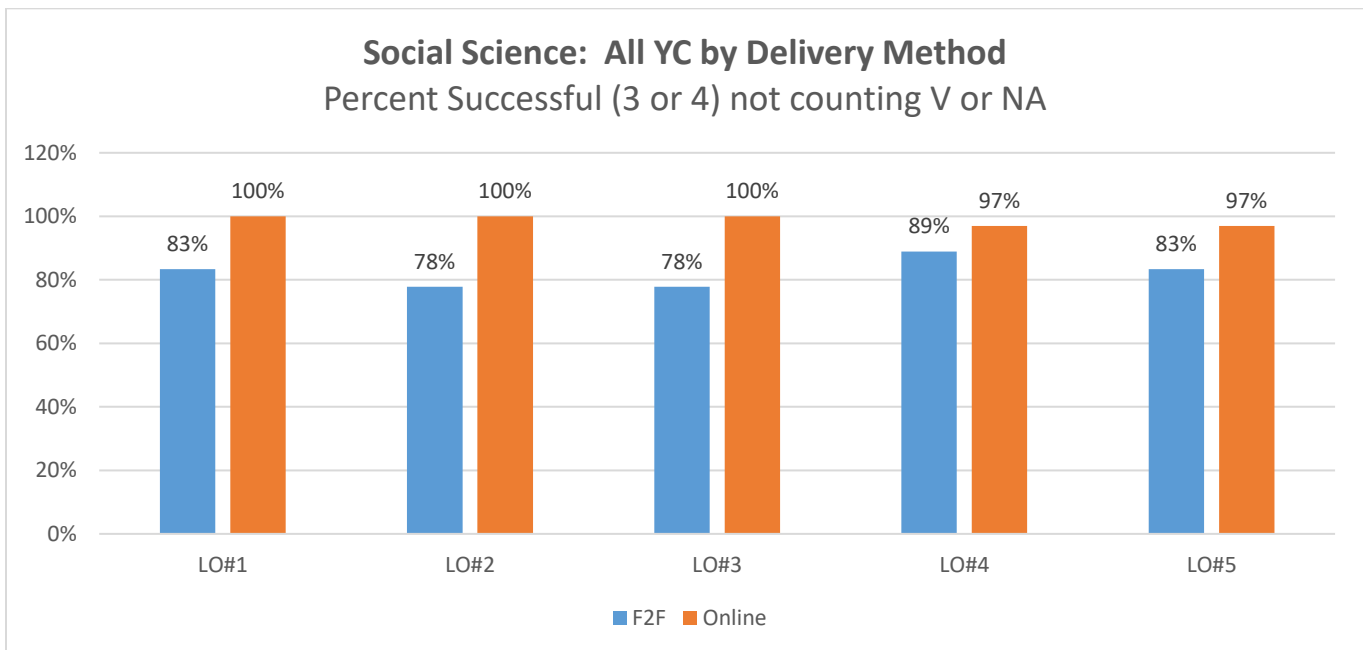

LO #1: Evaluate the relevant perspectives, paradigms, arguments, theories or interpretations in the social sciences.

LO #2: Explain research methods that guide research in social science disciplines.

LO #3: Define the relevant terminology and apply it to problems or issues.

LO #4: Analyze how human diversity contributes to differences in human interaction and world views.

LO #5: Articulate how social living and social inequality are influenced by cultural, social, pre-historical, geographical, economic and environmental influences.

NOTE: No rubric was posted on the General Education web page. Results below are not valid if faculty did not have a rubric to refer to when scoring students' performance on the outcomes.

Social Science: Results for all Yavapai College students

Social Science: All YC Courses
15 Courses, 6 Instructors, 150 Students
Data Collected F2017-F2018

Social Science: All YC Courses
Percent Successful (3 or 4) not including V or NA

	LO#1	LO#2	LO#3	LO#4	LO#5
Percent	94%	92%	92%	94%	92%

Social Science: All Yavapai College Courses by Delivery Method

Social Science: All YC by Delivery Method
Percent Successful (3 or 4) not counting V or NA

	LO#1	LO#2	LO#3	LO#4	LO#5
F2F	83%	78%	78%	89%	83%
Online	100%	100%	100%	97%	97%

Social Science: The following courses selected NA for all Social Science Outcomes:

ANT 101, 102, 104, 231
PSY 101

Social Science: GEO 102, SOC 101, 142, 250

Social Science: GEO and SOC

7 courses, 70 students

Social Science: GEO and SOC

Percent Successful (3 or 4) without V or NA
